# COMPUSPOT

The Next Generation of Inverter Spot Welders

## ADVANCED INVERTER SPOT WELDER

The ideal answer for how to weld today's high strength dual phase and boron steels with up to 630 daN (1,386lbf) of tip pressure, and 14,000 amps of welding current.

USB port for data transfer and program updates.

Welding report storage on USB key of each welding spot performed: user, current, force, time, etc.

Restoration on any PC of the reports saved on the USB key.

Liquid cooling all the way to the electrode tips.

7" touch screen control panel with high resolution color (800x480 pixels).

Fully compliant with European directive 2004/40/CE.

**Turning Innovation Into Productivity**

No. Model (440-480V): 28.CPS.855

No. Model (380-415V): 28.CPS.854

No. Model (208-230V): 28.CPS.853
